

Louisiana Parental Access to Instructional Material

Summary of Parental Access to Instructional Material

Parents may access students' overall schedules, assignment instructions, current grades, or information about missing assignments by accessing technology platforms where this information is housed or emailing the teacher directly. The teacher shares overall student progress with identified parents. If you are not receiving timely communication from the teacher regarding your student's grades, please email the principal.

The form below refers to a parent's right to review instructional materials that are used in class, are assigned for work outside of the classroom, etc. If requested by the parent or guardian, parents of students attending IDEA Innovation or IDEA Bridge can receive instructional assignments and/or materials associated with classwork, coursework, or assessments given to their child by a teacher in any course in which their child is currently enrolled.

Additionally, any survey given to students at IDEA Innovation or IDEA Bridge can be reviewed by a parent or guardian of the student. Please click [here](#) to request access to the information detailed above.
